☆ Ordering parts

All parts in this parts catalogue are controlled by computer.

For prevention of delivery of wrong parts, advise us of the catalogue No., code No., and part name.

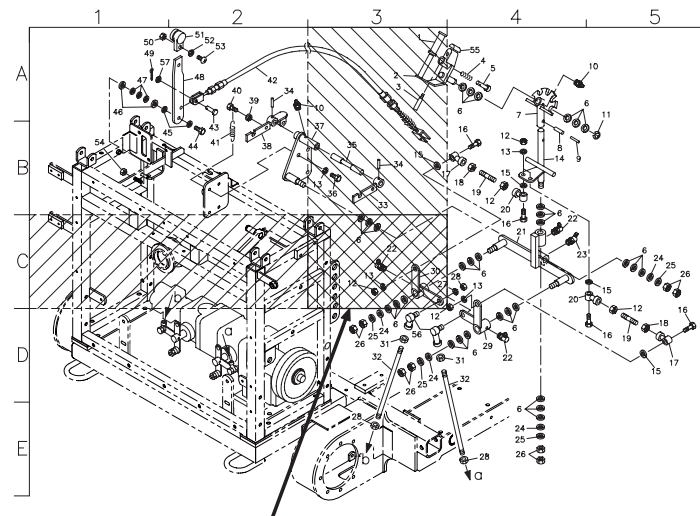

(Example)

Cat No.	Code No.	Part name	Qty	Remarks	Location
1-22	K144000022	C-type grease nipple	3		C3

☆ How to refer to the component no. in catalog illustrations of components in a state of disassembly

The alphanumeric characters in the 'Location' column of the parts list indicate the location of each component number from catalog illustrations of components in a state of disassembly.

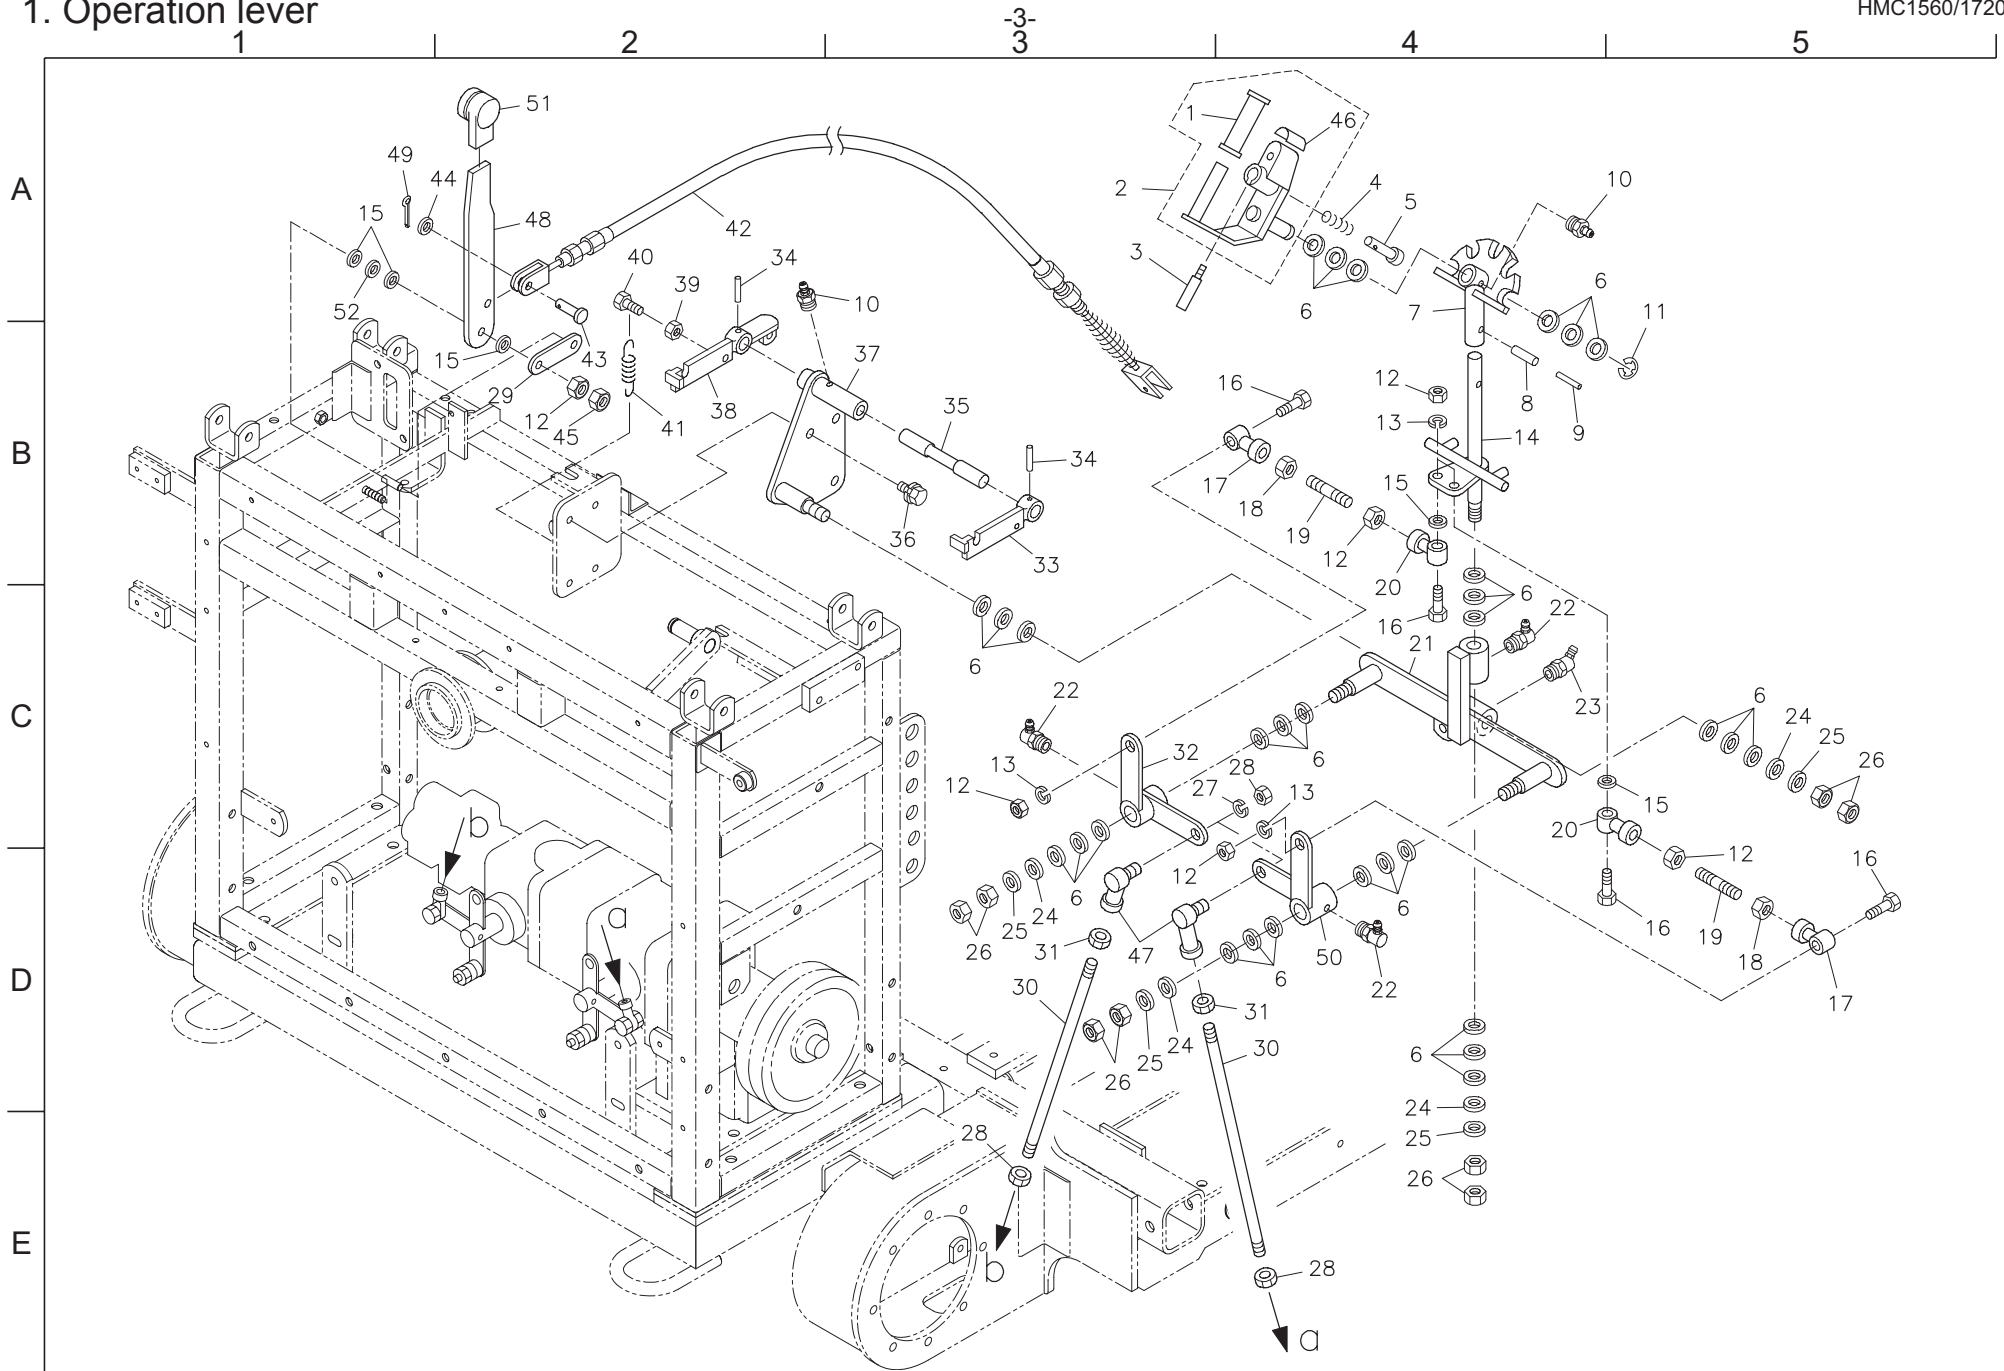

As in the above example, if C3 is written in the 'Location' column, the specific component number of the catalog can be found in the space where the two different patterns of diagonal lines overlap (in the space where the horizontal zone, C, and the vertical zone, 3, overlap).

The component number C3 in the 'Location' column of the parts list can be found where these two different patterns of diagonal lines overlap.

1. Operation lever

HMC1560/1720

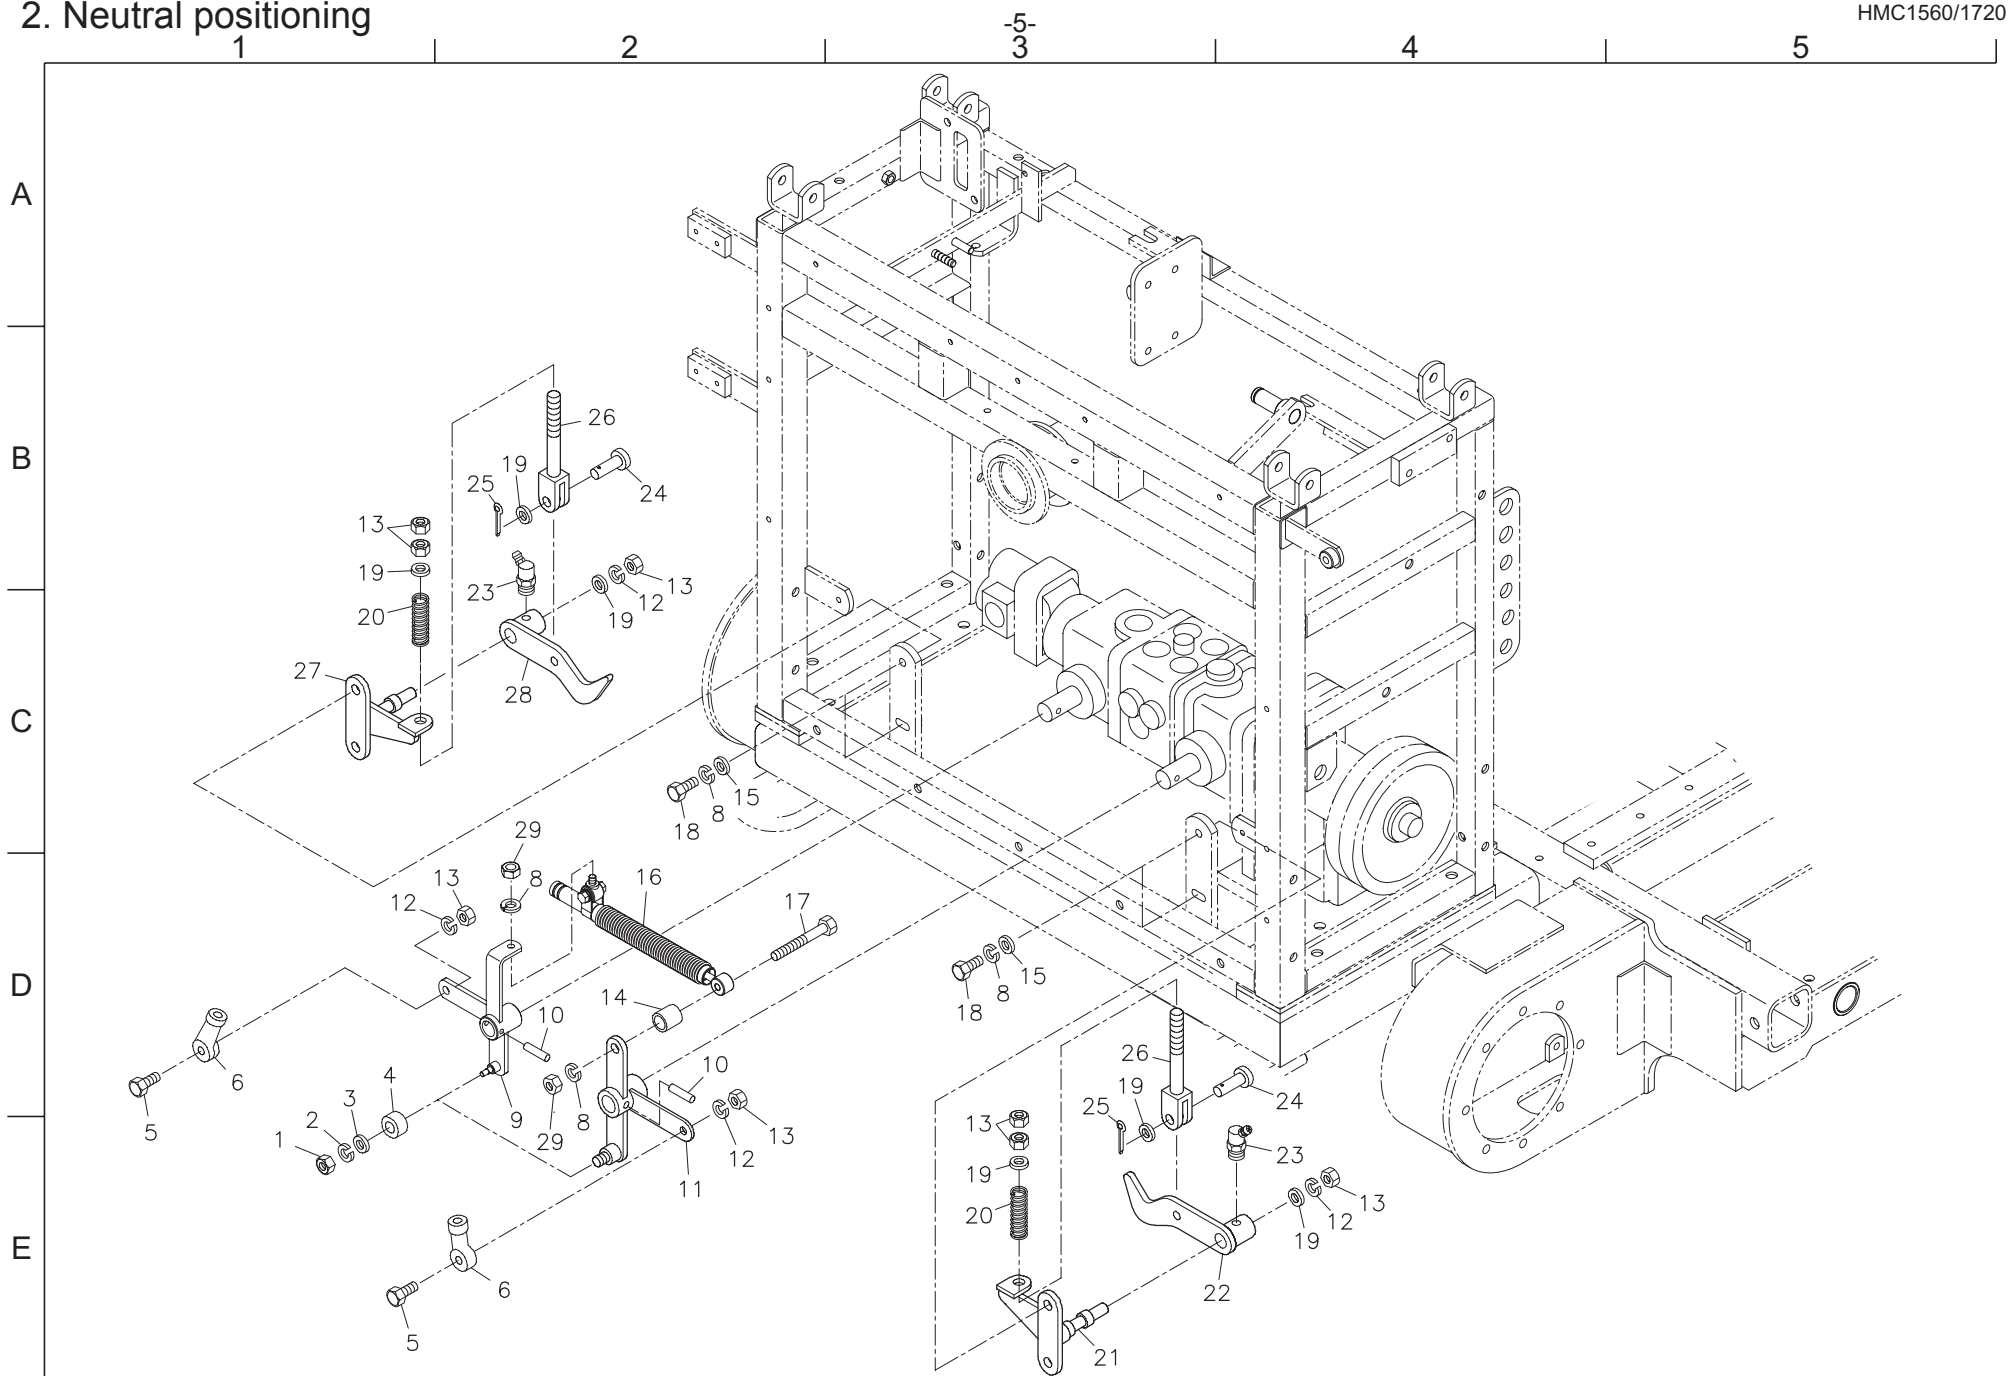

Catalog No.	Code No.	Part Name	Qty		Remarks	Location
